PRESSFEEDERS OUT.

Members of the Franklin Society Refuse to Leave Their Union.

Chicago, Oct. 5.—Large printing establishments here are partially crippled by the refusal of members of Franklin union No. 4, pressfeeders, to go to work in a house controlled by the Chicago Typothetae. They were given choice of forswearing allegiance to the union or losing their positions. The majority of the feeders failed to report for work Monday. This is the situation reported from seventy-five firms. Former members of the union who announced that they had renounced the union were allowed to go to work. There is said to be approximately 3000 pressfeeders in Chicago, 1800 of whom are members of the Franklin union, which is not affiliated with any other labor organization. In many shops where union men failed to report for duty girls were hired to take their places.

JOYFUL NEWS.

There Is No Danger of a Pie Famine in Greater New York.

Nw York, Oct. 5.—At the weekly meeting of the Central Federated union the pleasant news was made public that there will be no pie famine hereabouts. A delegate for the Pie Salesmen's union announced that the threatened strike had been averted through the employers granting the union scale of \$14 a week and other concessions.

Mr. R. J. Newland on yesterday received a telegram from Mr. John T. Hanway, who with his wife and little son, is at the Pasteur institute in St. Louis where the boy is under treatment to overcome the effects of the bite of a cat affected with rabies. The cat was shipped to the Pasteur institute and died on the way. The telegram states that upon examination the cat proved to have rabies, and that the boy's wounds are severe. He is under urgent treatment three times a day.

The ever popular Gentry Bros. trained animal show exhibited here yesterday afternoon and was up to its well known standard of excellence. Rain interfered with the attendance. The parade was better than usual, but caused a runaway on Main street. A horse became uncontrollable and ran away with a delivery wagon. The driver was thrown out and the horse tore loose from the wagon and fled in terror from the "steam piano."

Committees from the Methodist church have secured homes for many of the 300 preachers and delegates expected here for the annual conference and the work is still in progress. Other committees have also been appointed to get ready for the big event to which the people of the city are looking forward with great interest.

A private bank will soon be established at Bedia, to be known as the Citizens Bank, with Dave H. Shapira of this city president, and Robert Upchurch of Pankey vice-president and cashier. Capital stock, \$10,000. Work on the building will begin next week.—Madisonville Meteor.

Yellow Fever Conditions at Laredo Show Little Change.

AT NUEVO LAREDO.

Outlook Is Considerably Better Than For Some Time In That City, and at Monterey Sconrage Is Well in Hand.

Laredo, Tex., Oct. 5.—There has been practically no change in the yellow fever situation during the past few days. While each day continues to show the development of new cases, this, in the opinion of the doctors, is no more than they expected. The physicians in charge say that within a few days there will be a gradual diminution in the number of new cases and soon afterwards they expect to have entirely stamped out the disease. The official bulletin Sunday shows there have been four new cases and one death. The total number of cases is sixty-one, while there have been five deaths. The work of fumigating, general cleaning up and the carrying on of the house to house canvass is practically completed and has resulted in placing the city in a perfect sanitary condition.

Conditions are greatly improved in Nuevo Laredo, the day developing only one new case and three suspicious cases, while there has been no deaths reported.

Governor Reyes at Monterey has issued a circular having for its object the prevention of yellow fever reaching Monterey in epidemic form. The governor lays stress upon the necessity of preventing the bites of mosquitoes, which is now recognized by most medical men as being probably the only way in which yellow fever may be transmitted.

Reports from Monterey, Mex., state there have been two deaths there from yellow fever. The physicians, however, have the situation well in hand and claim there is no danger of the disease becoming epidemic. There are at present two suspicious cases.

One of the victims of the yellow fever was Lieutenant Juan Liceaga, a nephew of Dr. Eduarda Liceaga, the famous yellow fever and bubonic plague expert, who is president of the superior board of health of Mexico. Lieutenant Liceaga was a graduate from the military college of Chapultepec, having graduated last spring. He came to Monterey two months ago with an engineering corps to study for fortification. He became ill about a week ago. Reports from Victoria and Linares, Mex., state that the yellow fever conditions are gradually improving and it is expected the disease will soon be stamped out.

Died of Yellow Fever.

Vera Cruz, Mex., Oct. 5.—Col. J. Ramon Villava, military instructor judge of the cavalry, has died of yellow fever.

Nagin Pasha Relieved.

Washington, Oct. 5.—The navy department has received a cablegram from Rear Admiral Cotton, dated Beirut, Oct. 3. It stated Khabel Pasha, former governor general of Broussa, has succeeded Nagin Pasha at Beirut.

"LOOKING FOR A WIFE."

The big musical comedy, "Looking for a Wife," will be the attraction at the Grand opera house tonight, Oct. 6. This is said to be one of the comedy hits of the year, and will be presented by a company of twenty-five selected artists.

The Dallas News says of a recent performance: "It is possible that not until David DeWolfe's company took up 'Looking for a Wife,' did the author realize what a nice little bit of farce comedy he had made. The production last night was hugely enjoyed by a large audience. The title covered three acts of bright, snappy humor, principally crisp and new, good voices and some well-trained feet. It was free from the tawdry quality so often encountered in farce comedy, and some entirely new hits were worked in to advantage. The costuming was fresh, the scenery was not overworked, and there was a rounded quality noticeable in the little details. Even the tramp, that maligned individual, was not overdone, not overpainted, nor was he at all on the slushy order. Yet, he did not lose his attractiveness to the gods of the upper story. The same general comment might be made upon the cast. The burlesque and exaggeration, though frank enough, blended into stage realism sufficiently to make a whole that left smiles on the faces of an outgoing audience. The musical numbers were especially good."

They say credit belongs to a considerable extent to George Samuels, under whose direction "Looking for a Wife" is presented.

Dr. Frierson and family returned to Maysfield yesterday after spending a week as guests of Dr. West and family during which time Dr. Frierson preached a series of excellent sermons at the Presbyterian church.

The two days meeting of the Bryan Baptist association with Reliance church was concluded Sunday. There was a very large crowd present Sunday morning and Rev. S. R. McClung preached an excellent sermon. A magnificent dinner was served on the grounds.

With every purchase of as much as \$10.00 worth of goods at one time at his store from Oct. 1 to Oct. 17, Hurl Norwood will give to any man, woman or child making such a purchase a free ticket to the Forepaugh-Sells show. 259

BRYAN, TEXAS, OCT. 6, 1903

ADOPTS A NEW POLICY.

H. & T. C. and East and West Texas Lines to Organize Business Leagues and Promote Development.

The passenger department of the Central-East and West lines has announced the adoption of a new line of policy for developing and benefiting the territory tributary to its lines. There is nothing new in the announcement that the lines propose to assist the towns and their people in the territory through which they operate, but the change comes in the adoption of a plan of action which is well calculated to bring immediate and apparent results.

In some sections of the country, and especially in California, the co-operation of the business man and the merchant and harmonizing of their interests has added much to the early prosperity of the towns in which the movement has been inaugurated. The plan which the Central-East and West lines proposed to follow is a model if not an improvement over that system.

The policy which the railroads propose to pursue includes the organization of business leagues or co-operation with those already organized in all towns of consequence along their lines. In the operation of these leagues the har-

mony of the interests which exist between the farmer and the merchant or business man will be held up as the cardinal working principle. The primary object of the organizations will be the promotion of truck and fruit growing and diversification. The merchants will be exhorted to co-operate with the farmers in securing high prices and a steady market. The benefits concurrent on the carrying out of this policy to its logical conclusion will result equally to the farmer and the merchant.

It is also a part of the new policy to stimulate the manufacturing and canning of farm products. Primarily the farmer's object will be to take advantage of the high prices of an early market. While high prices and a steady market continue products will be shipped to markets in different parts of the country. When the market declines to a point where shipment is no longer profitable, the canning factories will be able to care for the surplus, and a well regulated scale of profits will be enjoyed regardless of conditions or the supply on the market.

The new policy has been outlined by Mr. Wm. Doherty, assistant general passenger agent, who has been in close touch with the development in East Texas for several years. The feasibility and practicability of the plan proposed is apparent, and it will doubtless result in many added advantages to the farmer and the business man.

Soldiers to be Paid.

The Bryan Light Guards will be paid tonight at the Armory. Members are commanded to bring all uniforms before they will be paid.

ANTICS OF ELLIOTT

Man From Minneapolis Causes Scene at White House.

HE HAD A REVOLVER.

Fought as if Possessed of Superhuman Strength and Officers For Several Minutes Could Not Subdue Minnesotan.

Washington, Oct. 5.—A man who gave his name as Elliott and his home as Minneapolis engaged in a fight with a policeman at the white house Monday. Both the policeman and Elliott were slightly injured and taken to the hospital. Earlier in the day Elliott appeared at the executive office and asked to see the president. He was mildly-mannered and was told to come back later. Some time after that he appeared at the white house, and while talking to Officer Cissell drew a revolver.

The man, who gave his name as Peter Elliott, was overpowered by the officers on duty, at the white house and carried to the police station in a van, which had been summoned. He was placed in the van in the custody of two officers. Seeming to realize then for the first time that he was under arrest, Elliott began a furious struggle for liberty. He drew a revolver and attempted to shoot Officer Cissell. The officer wrenched the weapon from his grasp. Elliott's struggles were so fierce, however, that the two officers in the cramped quarters of the van were unable to overcome him. Officer Cissell fired two shots to attract attention. Chief Usher Thomas Stone and Officer Parker of the white house force, who had assisted in arresting Elliott, rushed to the vehicle and assisted in overpowering him. In the struggle with the police in the van Elliott broke a glass panel.

Elliott is undoubtedly violently insane. Officer Cissell has a cut two inches long on one arm.

ANARCHIST EXPIRED.

His Death Due to Wound That Was Inflicted by a Socialist.

Montpelier, Vt., Oct. 5.—From a bullet wound, said to have been inflicted by Alexander Garreto, the Socialist leader at Barre, in a riot between Anarchists and Socialists at Sunday night, Eli Corti died here Sunday night. The death of Corti, who was an Anarchist, aroused much excitement in Barre, and threats are heard of further trouble. Menotti Serlati, editor of a Socialist newspaper, who attempted to address the meeting of Socialists brought about the attack by the anarchists, is still under arrest on charge of breach of the peace. Police reports indicate that during the riot in the street following the assault and within the hall two Italians were dangerously stabbed.

NO UNFRIENDLY ACT.

Japan's Mobilization of Troops Is Not Thus Far So Regarded.

Paris, Oct. 5.—The Russian government has made it known that Japan's mobilization of troops for transportation to Korea does not up to date constitute an unfriendly act against Russia. At the same time the Russian government is being kept fully advised as to the extent and nature of Japan's military and naval mobilization. It appears from these official sources that Japan has thus far embarked three divisions of troops, and a Japanese fleet is now between Chemulpo and Pusan. The ships continue under steam, but nothing is known beyond this of their purposes.

Baron De Rosen, Russian minister to Japan, returned to Tokio after an extended conference at Port Arthur last week with Admiral Alexieff, and who recently was designated to assume supreme control of Russian interests in the far east. The results of this conference are not known.

TWELVE ARE DROWNED

A Dreadful Disaster Takes Place on Lake Michigan.

SUNK LIKE A ROCK.

While a Squall Was Sweeping Over the Body of Water the Steamer J. H. Hackley Turned Over With Above Result.

Marinette, Wis., Oct. 5.—During a squall Saturday night on Lake Michigan, the steamer J. H. Hackley, captized and twelve persons were drowned. The Goodrich line steamer Sheboygan, rescued the seven persons on board on the Hackley. Reports of the disaster reached Marinette Sunday.

The Mackley was struck by a squall when seven miles off Green Island. The upper work was blown away before the men could reach a haven. The boat then turned over and went down in deep water. As the Hackley went to the bottom, those who could, seized on floating wreckage, while the women and three or four men failing to find any object which to cling to, sank in the raging sea.

The waves rolled high and the several who had found a hold on wreckage, finally lost strength and sank. It was more than an hour after the Hackley sank that the Sheboygan hove in sight. It was the shouts of victims in the water that attracted the attention of the Sheboygan. The darkness made rescue slow but the officers of the Sheboygan feel sure that they took aboard about every person afloat. Some of the people who were rescued say that it is possible that one or more of the eleven persons missing may have escaped death. This view is not given much credence by the sailors of the Sheboygan.

The Sheboygan made into Fish creek when the rescue of the other persons seemed impossible. The persons saved by the Sheboygan say that with the crashing away of the upper work all persons aboard the Hackley ran on deck. Hasty preparations for a plunge into the water were begun, but before any plans could be carried out the boat listed, turned over and went down like a rock.

STOP ALLOTMENTS.

This Is to Be Done Pending Approval of Segregation.

Washington, Oct. 4.—Acting Secretary Ryan of the interior department has sent telegraphic orders to the Dawes Indian commission to suspend the allotment of lands in the Cherokee nation pending the approval by the department of the segregation of the 157,000 acres of land in the Cherokee nation, claimed by the Delaware Indians, provision for which was made in the Curtis act of 1898. This order is the outcome of litigation instituted in the courts of the District of Columbia by the Delaware Indians in which Justice Anderson accepted an answer made by Secretary Hitchcock that the segregation of the lands to the Delawares had not been approved by him. Acting Secretary Ryan has directed the committee to forward promptly the corrections in the segregation of the 157,000 acres. The fact that some of the lands heretofore set aside are occupied by the Cherokees, the segregation will be approved. Judge Ryan expects that this will be done expeditiously, so that the allotments can go forward.

GIBBONS PREACHED.

Hundreds of Persons Attended High Mass at Baltimore Cathedral.

Baltimore, Oct. 5.—Special services were held at the Baltimore cathedral Sunday in honor of the election of Pius X. Cardinal Gibbons preached the sermon at high mass and was attentively listened to by a congregation that filled the edifice. So dense was the throng which filled every inch of the cathedral that the procession of the clergy, seminarists and acolytes following the mass was delayed until hundreds of persons cleared the aisles of the church. In addition to being the first sermon delivered at the cathedral by Cardinal Gibbons for three months, it had been announced he would speak for the convocate that elected the new pontiff. At the conclusion of the pontifical mass the pope's prayer was chanted by the choir of St. Mary's seminary, consisting of thirty voices. The cardinal then delivered his sermon.
